

Virus / Spyware Protection & Remote Back-ups

Protect your Critical data

Microsoft
Partner Program

Remote Back-ups

A secure, straightforward and efficient way to protect business information stored on corporate laptops, PCs and servers has been introduced by Eserve.

Remote Backup and Restore service enables customers to back up and protect their business-critical data from across their organisation to a remote site automatically.

Eserve Remote Backup and Restore enables organisations to minimise the impact of loss of business-critical data after a systems crash, virus damage, a disaster or equipment theft.

Anti-virus & Spyware Protection

*"Yes, It Can Happen to You
Don't assume small businesses get overlooked by the cyber bad guys. Turns out small businesses may be more vulnerable because they don't have resources to adequately protect themselves against attacks. Learn how to help protect your business" - Microsoft*

Eserve IT provides you with critical virus & spyware protection, making sure that your network is safe round the clock.
