Wireless networks, Voice over IP & Hardware sales

WiFi - Wireless Networks

Wi-Fi, or Wireless Fidelity, allows you to connect to the internet from virtually anywhere at speeds of up to 54Mbps. Wi-Fi-enabled computers and handsets use radio technologies based on the IEEE 802.11 standard to send and receive data anywhere within the range of a base station.

By eliminating the need for cables, Eserve can streamline your network & provide you with a more user-friendly IT environment.
